(b) For purposes of this Section 2(b), and unless a majority of the holders of the Convertible Class B Preferred Stock affirmatively vote or agree by written consent to the contrary, a Liquidation shall be deemed to include (i) the acquisition of the Company by another entity by means of any transaction or series of related transactions (including, without limitation, any reorganization, merger or consolidation) and (ii) a sale of all or substantially all of the assets of the Company, unless the Company’s stockholders of records as constituted immediately prior to such acquisition or sale will, immediately after such acquisition or sale (by virtue of securities issued as consideration for the Company’s acquisition or sale or otherwise) hold at least fifty percent (50%) of the voting power of the surviving or acquiring entity.

(c) If any of the assets of the Company are to be distributed other than in cash under this Section 2, then the board of directors of the Company shall promptly engage independent competent appraisers to determine the value of the assets to be distributed to the holders of Convertible Class B Preferred Stock or Common Stock. The Company shall, upon receipt of such appraiser’s valuation, give written notice to each holder of shares of Convertible Class B Preferred Stock or Common Stock of the appraiser’s valuation.

No holder of shares of the Convertible Class B Preferred Stock shall be allowed to vote and convert into any position that would result in the Convertible Class B Preferred Stock Holder to hold more than nine and nine tenths percent (9.9%) of the Company’s outstanding shares of Common Stock.

(5) Covenants. In addition to any other rights provided by law, the Company shall not, without first obtaining the affirmative vote or written consent of the holders of a majority of the outstanding shares of Convertible Class B Preferred Stock, do any of the following:

Item XVI: Management's discussion and analysis or plan of operation.

A. Plan of Operation: Issuer's Plan of Operation for the next twelve months.

Our principal business is in the financial services market, namely providing secured collateralized personal, bridge and term loans to individuals and businesses. Since formation, the Company's principal activities have consisted of research, development and formulation of our loan services and products, and deliberately raising the minimal capital necessary to fund these activities.

We firmly believe that we have put in place the necessary pillars to create a high growth consumer and strategic partner driven market for our services and loan products. By utilizing this multi-layered go-to-market strategy, in combination with capital to fund promotions and advertising, the company through its subsidiaries, IntelliCash LLC and IntelliCash GA LLC, hopes to generate impressive sales growth.

Business Strategy

1. Raise capital to put us in a position to execute our business plan
2. Initiate aggressive online and offline marketing campaigns to build our brand, market awareness and recognition
3. Increase authorized appraisal/authentication expert network.
4. Increase customer base through online and authorized strategic partner channels.
5. Introduce new products into the marketplace
6. Hire additional key employees to help strengthen the Company

B. Management's Discussion and Analysis of Financial Condition and Results of Operations.

For the three months ended March 31, 2017 (Unaudited)

Revenues

We had revenues of \$4,280 for the three months ended March 31, 2017, consisting of interest income of \$3,780 and services revenues of \$500 for loan documents preparation and review. We recognize revenue when persuasive evidence of an arrangement exists, transfer of title has occurred or services have been rendered, the selling price is fixed or determinable and collectability is reasonably assured. We expect revenues to increase in 2017 as we move forward implementing our business plan.

Operating Expenses

We had operating expenses of \$677,697 for the three months ended March 31, 2017 primarily due to professional fees in the amount of \$30,977 and stock issued for compensation in the amount of \$623,700. Operating expenses were in connection with preparing the launch of our new finance-based business model as well as fees to maintain our public listing, including fees to file periodic reports and transfer agent fees. . The fair value of the 11,000,000 shares of common stock issued for services was determined by the fair value of our Common Stock on the grant date, at a price of approximately \$0.0567 per share, resulting in stock based compensation of \$623,700.

Both operating costs and expected revenue generation are difficult to predict. There can be no assurance that revenues will be sufficient to cover future operating costs, and it may be necessary to continuously raise additional capital to sustain operations.

We expected our operating expenses would significantly increase in 2017 as we move forward implementing our business plan.

Income/Losses

We had net losses of \$724,786 for the three months ended March 31, 2017. The net losses were primarily due to \$623,700 in stock based compensation resulting from the issuance of 11,000,000 shares of common stock during the first quarter of 2017. We incurred the charges primarily due the reorganization from our pain relief products to our financed based business model.

We expected we will achieve profitability within the next two fiscal years from our financing business, however, there can be no assurance that we will achieve or maintain profitability, or that any revenue growth will take place in the future.

Impact of Inflation

We believe that inflation has had a negligible effect on operations since inception. We believe that we can offset inflationary increases in the cost of operations by increasing sales and improving operating efficiencies.

Liquidity And Capital Resources

Net cash flows used in operating activities were \$20,497 during the three months ended March 31, 2017. Negative cash flows from operations were primarily caused by our net loss for the period partially offset by non-cash expenses of \$623,700 for stock based compensation, plus the increase in accrued expenses and accrued interest payable in amount of \$30,000 and \$14,172, respectively.

Cash flows used in investing activities for the three months ended March 31, 2017 were \$3,000 from the purchase of a note receivable.

Cash flows provided by financing activities were \$12,500 for the three months ended March 31, 2017 due to the issuance of a 12% convertible note. The Note is convertible into common shares of the Company at the conversion ratio of \$.05 per share or 50% of the lowest closing bid price of the last five trading days upon receiving Conversion Notice, whichever is lower.

We had cash of \$1,069 on hand as of March 31, 2017. On the short-term basis, we will be required to raise a significant amount of additional funds over the next 12 months to sustain operations. On the long-term basis, we will potentially need to raise capital to grow and develop our business.

It is likely that we will require significant additional financing within the next 12 months and if we are unable to raise the needed funds on an acceptable basis, we may be forced to cease or curtail operations.

C. Off-Balance Sheet Arrangements: None

The above issuance gave IntelliCash Members and/or their assigns a 'controlling interest' in the Company representing approximately 81.74% of the issued and outstanding ownership of the Company on a fully diluted basis.
