

IntelliCash is a licensed and bonded pawn broker offering fast, discrete, collateralized loans against luxury assets via a secure online platform.

Secure, Discrete, and Fair Collateralized Lending for High Net Worth Individuals

For high net worth individuals with watches, cars, artwork, and other luxury assets, finding ways to leverage those assets to raise cash quickly often leads people to pawnshops that offer unfair loans with high rates. We offer a higher loan to value, better rates, and hassle free funding options.

Pawn Loans Represent a \$20B Industry Ripe for Change

There are 10,000 pawn shops in the US today, many of which are designed to service low income individuals pawning low value items. Few have brought technology and the power of the internet to the industry and worked to create a fast, discrete way for those with high value items to obtain fair, collateralized loans.

A Proven Business Model

Borro, a private company with \$200M in funding from private investors like Rocket Internet and OurCrowd, has already funded \$395M in transactions (with an average loan of \$50,000) and proved that the model can work. However, as a private company there is no way for investors to be involved in their growth.

A Team of Experts in Online Customer Acquisition

We've partnered with a group that has extensive experience in online sales funnel optimization. They will be using brand ambassadors, traditional online sales funnel strategies, online marketing/advertising, and targeting traditional publications through PR and media relations to quickly ramp up a customer base.
